Série comercial	Série ROLLER 450
Descrição sintética	ENROLADOR DE CABO SEM DISCO

**Descrição**

The ROLLER 450 Series Cable Reel is designed for efficient cable management without the need for a holder disc. Constructed from robust materials, it ensures long-lasting performance in demanding environments. The cable reel is engineered for surface mounting, providing a streamlined solution for professional settings. It features an automatic rewind system, enhancing operational efficiency and safety. The absence of a holder disc allows for a more compact design, making it suitable for spaces where traditional reels may not fit. This cable reel is ideal for professionals seeking a reliable and durable cable management solution. cable reel without holder disc.
