

SC92063**ENROLADOR DE CABO SEM DISCO****■ CARACTERÍSTICAS GERAIS**

Série comercial	Série ROLLER 330
Descrição sintética	ENROLADOR DE CABO SEM DISCO

Descrição

The ROLLER 330 Series Cable Reel is designed for efficient cable management without the need for a holder disc. Constructed for professional use, this cable reel offers a robust solution for various applications. It features a durable build, ensuring longevity and reliability in demanding environments. The absence of a holder disc allows for streamlined operation and easy handling. This cable reel is ideal for settings where space optimization and efficient cable deployment are crucial. With its professional-grade construction, the ROLLER 330 Series Cable Reel is a dependable choice for those seeking a high-performance cable management solution.
