## ■ CARACTERÍSTICAS GERAIS

Série comercial	Série PROLUNGHE
Descrição sintética	CORDÃO EXTENSÃO

## Descrição

The Cord Extension from the PROLUNGHE Series is designed for demanding environments, offering robust performance with its IP66/IP67 protection rating, ensuring superior resistance to dust and water ingress. Constructed from high-quality engineering plastic, this extension cord is built for durability and resilience. It features a 30-meter cable with a 3x2.5mm<sup>2</sup> section, providing ample reach and reliable power transmission for professional applications. This product is ideal for use in settings where environmental protection and long-lasting performance are critical. engineered for reliability, it meets the rigorous demands of industrial and commercial use, ensuring consistent and safe operation in challenging conditions.

## ■ CARACTERÍSTICAS TÉCNICA

Polos	2P+T
Corrente nominal	16A
Posição horária	6h
Tensão nominal	200-250V
Cable section	3x2,5mm <sup>2</sup>

## ■ CARACTERÍSTICAS FÍSICAS

Grau de proteção IP	IP66/IP67
Material	TECNOPOLÍMERO
Cor	PRETO

## ■ CARACTERÍSTICAS DIMENSIONAIS

Cable length	30m
--------------	-----
