SIEMENS

Data sheet 6GT2821-0AC12

product type designation

RF290R reader

SIMATIC RF200 reader RF290R without antenna; with serial RS 232/RS 422 interface can be selected for connection of the antennas ANT D2; ANT D5; ANT D6; ANT D10.

suitability for operation	ISO 15693 Transponder (MDS Dxxx), for connecting to communication modules and PC systems		
dio frequencies			
operating frequency / rated value	13.56 MHz		
range / maximum	650 mm; Range adjustable in reader via transmission power, range is dependent on transponder type: observe http://support.automation.siemens.com/WW/view/en/67384964		
protocol / with radio transmission	ISO 15693, ISO 18000-3		
transfer rate / with radio transmission / maximum	26.5 kbit/s		
product feature / multitag-capable	Yes		
ectrical data			
transfer rate / at the point-to-point connection / serial / maximum	115.2 kbit/s		
transmission time / for user data			
• for write access / per byte / typical	0.6 ms		
• for read access / per byte / typical	0.6 ms		
terfaces			
number of external antennas	1		
standard for interfaces / for communication	RS422/RS232		
type of electrical connection	M12, 8-pin		
for external antenna(s)	TNC		
 for supply voltage 	M12, 8-pin		
• for communications interface	M12, 8-pin		
at the digital inputs/outputs	M12, 4-pin, female connector		
number of digital inputs	1		
number of digital outputs	1		
echanical data			
material	aluminum		
color	silver/anthracite		
tightening torque / of the screw for securing the equipment / maximum	1.5 N·m		
mounting distance / relating to metal surfaces / recommended / minimum	0 mm		
upply voltage, current consumption, power loss			
supply voltage / at DC			
• rated value	24 V		
•	21.6 26.4 V		
consumed current / at DC			
at 24 V / typical	0.4 A		
• at 24 V / maximum	0.5 A		

ambient temperature					
ambient temperature	-20 +55 °C				
during operation					
during storage	-25 +85 °C				
during transport	-25 +85 °C				
protection class IP	IP65				
shock resistance	EN 60721-3-7 Class 7 M2				
shock acceleration	300 m/s²				
vibrational acceleration	20 m/s ²				
design, dimensions and weights	000				
width	200 mm				
height	80 mm				
depth	140 mm				
net weight	1.8 kg				
fastening method	4 M4 screws, DIN rail 35 mm, S	S7-300 mounting rail			
wire length					
of antenna cable / minimum	3.3 m				
of antenna cable / maximum	25 m				
• with RS 232 interface / maximum	30 m				
for RS 422 interface / maximum	1000 m				
product features, product functions, product components / gene	eral				
display version	4 LEDs				
standards, specifications, approvals					
certificate of suitability	CE, FCC, IC (Canada)				
certificate of suitability					
• IECEx	No				
MTBF	18 a				
reference code					
• according to IEC 81346-2:2019	BYB				
accessories					
accessories	Various antennas are available mounting set for top-hat rail mo		enna multiplexer,

security information					
security information	Siemens provides products and solutions with industrial cybersecurity functions that support the secure operation of plants, systems, machines and networks. In order to protect plants, systems, machines and networks against cyber threats, it is necessary to implement – and continuously maintain – a holistic, state-of-the-art industrial cybersecurity concept. Siemens' products and solutions constitute one element of such a concept. Customers are responsible for preventing unauthorized access to their plants, systems, machines and networks. Such systems, machines and components should only be connected to an enterprise network or the internet if and to the extent such a connection is necessary and only when appropriate security measures (e.g. firewalls and/or network segmentation) are in place. For additional information on industrial cybersecurity measures that may be implemented, please visit www.siemens.com/cybersecurity-industry. Siemens' products and solutions undergo continuous development to make them more secure. Siemens strongly recommends that product updates are applied as soon as they are available and that the latest product versions are used. Use of product versions that are no longer supported, and failure to apply the latest updates may increase customer's exposure to cyber threats. To stay informed about product updates, subscribe to the Siemens Industrial Cybersecurity RSS Feed under https://www.siemens.com/cert. (V4.7)
