

SC92064**ENROLADOR DE CABO SEM DISCO****■ CARACTERÍSTICAS GERAIS**

Série comercial	Série ROLLER 330
Descrição sintética	ENROLADOR DE CABO SEM DISCO

Descrição

The ROLLER 330 Series Cable Reel is designed for efficient cable management in professional settings. This model is constructed without a holder disc, optimizing space and functionality. It features a robust build to withstand demanding environments, ensuring long-term reliability. The cable reel is engineered to facilitate easy handling and deployment of cables, making it a practical choice for various applications. Its design focuses on durability and efficiency, catering to the needs of professionals who require dependable equipment. The absence of a holder disc allows for streamlined operation, enhancing the overall user experience.
