

SC92066**ENROLADOR DE CABO SEM DISCO****■ CARACTERÍSTICAS GERAIS**

Série comercial	Série ROLLER 450
Descrição sintética	ENROLADOR DE CABO SEM DISCO

Descrição

The ROLLER 450 Series Cable Reel is designed for efficient cable management without the need for a holder disc. Constructed for professional use, this cable reel offers robust performance and reliability. It is engineered to withstand demanding environments, ensuring long-lasting durability. The absence of a holder disc simplifies the design while maintaining functionality. This cable reel is ideal for applications where space-saving and streamlined cable management solutions are required. With its professional-grade construction, the ROLLER 450 Series Cable Reel is a dependable choice for those seeking a high-quality, efficient cable management system.
