**Descrição**

The ROLLER 330 Series 2 IND. SOCKET HOLDER DISC is designed for efficient power distribution in professional settings. This socket holder disc is engineered for surface mounting, providing a robust solution for industrial environments. Constructed with high-quality materials, it ensures durability and reliability. The design accommodates two industrial sockets, facilitating seamless integration into existing electrical systems. Its compact form factor allows for easy installation and maintenance, making it an ideal choice for environments where space is at a premium. This product is tailored to meet the demands of professionals seeking dependable and efficient power management solutions.
