

Micro820 Controller

[2080-LC20-20QBB](#)

*Representative Rendering, Not The Actual Product*

Controller, 12 24V DC Inputs, 4 configurable analog input with thermistor voltage reference out, 7 24V DC Source Output, 1 Analog Output, Embedded Ethernet Port and RS-232/485 non-isolated Serial port, Embedded RTC, MicroSD Card support, 2 Plug-In slots

Product Details

M830 Product Configuration	
Digital Input Type	24V DC
Number of Input Points available	12
Digital Output type	24V DC Source
Number of Output Points Available	7
Conformally Coated	No
Motion Support Options	
Note:	High Speed Counters available only via Plug-in modules - up to 2 HSCs per Plug-in
Number of Plug-in Slots available for the Selected IO Points	
Max number of Plug-in Slots Available	2
Accessories	
Network Media	Male RJ45 to Male RJ45, Unshielded Twisted Pair, Teal TPE Cable, 1.9 m
