Delta VFD150F43A VFD-F Series Drive

- Series: VFD-F
- 20 HP
- 15 KW
- 460 V
- 32 A
- Input: 3 PH

This product is no longer manufactured or sold. The Delta recommended replacement is the VFD32AMS43ANSAA drive. Please check the dimensions and specifications on the replacement drive page or contact us at 800-985-6929 to confirm the replacement will work for your application.

REPLACEMENT DRIVE

DESCRIPTION

Variable Torque AC Drive. Specifically designed for medium and high horsepower fan and pump applications. The F series offers an adjustable V/F curve and automatic voltage regulation. It also

offers the capability of connecting and running consecutively four motors. A set of motors consisting of 1 variable-speed motor and 3 constant-speed motors is allowable.

Delta VFD150F43A – Fan and Pump Purpose Drives

Delta Products

AC Drives, VFD-F Series

ITEM # VFD150F43A

MFG # VFD150F43A

Series VFD-F

Drive, AC, 20Hp Three Phase 460V Input

Specifications

Item Number: VFD150F43A

Manufacturer: Delta Products

Item Category: Drives

Subcategory: AC

Series: VFD-F

Nominal Input VAC: 480 Volts AC

Input Range VAC: 380 to 480 Volts AC

HP (VT): 20 Horsepower

Amps (VT): 32 Amps

Input Phase: 3

Operator Controls: Keypad Included

Max. Frequency: 120 Hertz

Braking Type: DC Injection;Dynamic Braking

Motor Control-Max Level: V/Hz (Scalar)

Closed Loop: No

AC Line Regenerative?: No

Dynamic Braking Trans?: Included

Enclosure Rating: IP20

Delta Bypass Panels play an important role in a system to reduce energy usage,optimize AC motor speed control, extend motor life, and reduce overall cost. The bypass capabilities allow the motor to be operated from either the Delta VFD or at full speed, directly across the line. The Delta

Bypass Panel sets a benchmark for cost, performance, quality, and custom engineered bypass panels. Delta offers both the standard bypass panel, or our custom engineered panel to fulfill all your specification requirements.
